

Appendix F(a)

U9 & U11 Teams Proposal

The proposal has been put forward to include team competitions along with associated awards at the end of the season for the U9 and U11 young athletes.

Nick feels that this would help to increase participation levels in the younger age groups as well as to provide greater incentive for those young athletes finishing further down the field in races. In addition, should the proposal be ratified it would bring the U9 and U11 competitions into alignment with those for the other age categories.
